EXPERIENCE

HIGHLIGHTED PERSONAL PROJECTS   Remote
Full-Stack Web Developer   September 2022 – Present

Budget App — A mobile web application where you can manage your budget: you have a list of transactions associated with a category, so that you can see how much money you spent and on what.
- Built with: (Ruby, Ruby on Rails)

Countries — A Simple App To help users find important information about any Country
- Built with: (JavaScript, CSS, and API)

Polyglot — A Website Built for a Multi-Languages School to help users interact with provided programs
- Built with: (JavaScript, Html, and CSS)

Movies — Website Providing information about movies and user interaction with Movies of choice
- Built with: (JavaScript, Html, CSS, and API)

MICROVERSE   Remote
Mentor (Volunteer)   October 2022 – April 2023
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

CHIZ TECHNOLOGY   On-Site
Full-Stack Engineer   May 2021 – August 2022
- Collaborated closely with project managers, designers, and developers to gather client requirements and translate them into comprehensive technical specifications for both web and mobile applications.
- Developed high-quality, scalable, and efficient software solutions using JavaScript, React, and Node.js, resulting in improved user experiences, increased functionality, and enhanced client satisfaction.
- Integrated third-party services and APIs seamlessly into applications, enhancing functionality, optimizing data exchange processes, and improving overall performance
- Actively contributed to a collaborative and innovative team environment, sharing knowledge and insights with colleagues to foster continuous learning and improvement.

EDUCATION

MICROVERSE   September 2022 – Present

Remote Full Stack Web Development Program, Full Time
- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

KIGALI INDEPENDENT UNIVERSITY   September 2017 – May 2021
Bachelor's Degree in Computer Science
- Developed skills in programming with Python and C/C++
- Gained extensive problem-solving skills and the ability to work under extremely high pressure
